1. Identification

Product name Tris-Acetate-EDTA (TAE) Buffer (pH 8.3), Sterile

Cat. No **BR0020** 1L (10X)
BR0031 1L (50X)

2. Description

TAE is a high quality, reliable and versatile buffer. It is useful due its basic pH that allows migrations of the DNA through the gel toward the positive anode. TAE buffers are used for the analyses of DNA products resulting from PCR amplification, DNA purification, or DNA cloning experiments.

TAE has a low ionic strength and buffering ability, it used to separating DNA larger than 1,500 bp and easily recovers the DNA from gel.

3. Specifications

Chemicals: Analytical grade.

RNAse/DNAse activity: non-detectable

Format: Liquid

Composition (1X): 40 mM Tris, 20 mM acetic acid, 1 mM EDTA

Direction of use (10X): Dilute 10x solutions 10:1 to make a 1x working solution. (50x): Dilute 50x solutions 50:1 to make a 1x working solution.

Sterilization: purified using a 0.22 µm filtration process [aseptically filled]

The pH should be 8.3 ± 0.2 at 25°C.

- The pH of the solution may require slight adjustment.
- Adjust pH with 1N HCl (if pH is high) or 1N NaOH (if pH is low).

4. Shipping and Storage specifications

TAE buffers are shipped at room temperature. Store the product in a dry place at room temperature.

5. Applications

- Running buffer and gels for RNA analysis native and denaturing
- Polyacrylamide and agarose gels
- Nucleic acid electrophoresis
- Transfer buffer in Northern Blotting

6. Quality

Manufactured in an **ISO 13485:2016 and GMP-certified facility**, located in Boecillo, Valladolid (Spain), under ISO9001:2016 procedures to ensure the highest quality standards.

7. Further information

Product Use Limitation This product is developed, designed and sold exclusively only for research purposes use. The product was not tested for use in diagnostics or for drug development, nor is it suitable for administration to humans or animals.

Disclaimer The information provided in this Data Sheet is correct to the best of our knowledge and belief at the date of publication. This information is intended only as a guide and should not be taken as a warranty or quality specification. Canvax Reagents S.L.U. shall not be held liable for any damage resulting from handling or from contact with the above product.
